

Hunt for Junior CV Raman – 2022

Class V

CODE	22005

SAMPLE QUESTION PAPER

SCIENCE

are inwith respect to the interior of the aeroplane. a) rest, motion b) rest, rest c) motion, rest d) motion, motion 2 In increasing magnitude which of the following is correct? a) m, cm, km, mm b) mm, cm, km c) cm, mm, km d) mm, m, cm, km 3 is a place where the earthworm is reared in school premises a) compost pit b) solid waste c) dust bin d) liquid waste 4 The only material that can be recycled to 100% is a) paper b) glass c) plastic d) cement 5 Which mosquito bites people during the day? a) culex b) aedes c) male anopheles d) female anopheles	1	The passengers sitting in a flying aeroplane are inwith respect to clouds, but
b) rest, rest c) motion, rest d) motion, motion In increasing magnitude which of the following is correct? a) m, cm, km, mm b) mm, cm, km c) cm, mm, m, km d) mm, m, cm, km compost pit b) solid waste c) dust bin d) liquid waste The only material that can be recycled to 100% is a) paper b) glass c) plastic d) cement Which mosquito bites people during the day? a) culex b) aedes c) male anopheles		are inwith respect to the interior of the aeroplane.
c) motion, rest d) motion, motion In increasing magnitude which of the following is correct? a) m, cm, km, mm b) mm, cm, m, km c) cm, mm, m, km d) mm, m, cm, km compost pit b) solid waste c) dust bin d) liquid waste The only material that can be recycled to 100% is a) paper b) glass c) plastic d) cement Which mosquito bites people during the day? a) culex b) aedes c) male anopheles		a) rest, motion
d) motion, motion In increasing magnitude which of the following is correct? a) m, cm, km, mm b) mm, cm, m, km c) cm, mm, m, km d) mm, m, cm, km		b) rest, rest
2 In increasing magnitude which of the following is correct? a) m, cm, km, mm b) mm, cm, m, km c) cm, mm, m, km d) mm, m, cm, km 3		c) motion, rest
a) m, cm, km, mm b) mm, cm, m, km c) cm, mm, m, km d) mm, m, cm, km 3		d) motion, motion
b) mm, cm, m, km c) cm, mm, m, km d) mm, m, cm, km 3	2	In increasing magnitude which of the following is correct?
c) cm, mm, m, km d) mm, m, cm, km is a place where the earthworm is reared in school premises a) compost pit b) solid waste c) dust bin d) liquid waste The only material that can be recycled to 100% is a) paper b) glass c) plastic d) cement Which mosquito bites people during the day? a) culex b) aedes c) male anopheles		a) m, cm, km, mm
d) mm, m, cm, km is a place where the earthworm is reared in school premises a) compost pit b) solid waste c) dust bin d) liquid waste 4 The only material that can be recycled to 100% is a) paper b) glass c) plastic d) cement 5 Which mosquito bites people during the day? a) culex b) aedes c) male anopheles		b) mm, cm, m, km
is a place where the earthworm is reared in school premises a) compost pit b) solid waste c) dust bin d) liquid waste The only material that can be recycled to 100% is a) paper b) glass c) plastic d) cement Which mosquito bites people during the day? a) culex b) aedes c) male anopheles		c) cm, mm, m, km
a) compost pit b) solid waste c) dust bin d) liquid waste 4 The only material that can be recycled to 100% is a) paper b) glass c) plastic d) cement 5 Which mosquito bites people during the day? a) culex b) aedes c) male anopheles		d) mm, m, cm, km
b) solid waste c) dust bin d) liquid waste 4 The only material that can be recycled to 100% is a) paper b) glass c) plastic d) cement 5 Which mosquito bites people during the day? a) culex b) aedes c) male anopheles	3	is a place where the earthworm is reared in school premises
c) dust bin d) liquid waste The only material that can be recycled to 100% is a) paper b) glass c) plastic d) cement Which mosquito bites people during the day? a) culex b) aedes c) male anopheles		a) compost pit
d) liquid waste The only material that can be recycled to 100% is a) paper b) glass c) plastic d) cement Which mosquito bites people during the day? a) culex b) aedes c) male anopheles		
The only material that can be recycled to 100% is a) paper b) glass c) plastic d) cement Which mosquito bites people during the day? a) culex b) aedes c) male anopheles		c) dust bin
a) paper b) glass c) plastic d) cement Which mosquito bites people during the day? a) culex b) aedes c) male anopheles		d) liquid waste
b) glass c) plastic d) cement Which mosquito bites people during the day? a) culex b) aedes c) male anopheles	4	The only material that can be recycled to 100% is
c) plastic d) cement Which mosquito bites people during the day? a) culex b) aedes c) male anopheles		
d) cement Which mosquito bites people during the day? a) culex b) aedes c) male anopheles		b) glass
Which mosquito bites people during the day? a) culex b) aedes c) male anopheles		c) plastic
a) culex b) aedes c) male anopheles		
b) aedes c) male anopheles	5	Which mosquito bites people during the day?
c) male anopheles		'
		'
d) female anopheles		
s, i.e., sie sie prieses		d) female anopheles

LOGICAL DEVELOPMENT

6	What will be the next term: BDF , CFI , DHL ,?					
	(a)CJM	(b) EIM	(c) EJO	(d) EMI		
7	If book is called wat	ch, watch is called	, bag, bag is called	I dictionary and diction	nary is	
	called window, which is used to carry the books?					
	(a) Dictionary	(b) Bag	(c) Book	(d) Watch		

MATHS

8	In a movie hall, 435 seats are vacant and 1342 seats are occupied. What is the seating
	capacity of the hall?
	a. 907
	b. 1777
	c. 1778
	d. 1787
9	Out of these, which is an obtuse angle?
	of a right angle
	a. $\frac{11}{21}$ of a right angle.
	11
	b. $\frac{11}{21}$ of a complete rotation
	c. $\frac{8}{20}$ of a complete rotation
	d. $\frac{8}{20}$ of a right angle.
10	A milk man buys milk contained in 10 vessels of equal size. If he sells his milk at Rs. 5
	a litre, he loses Rs. 200; if he sells it at Rs. 6 a litre, he would gain Rs. 150 on the
	whole. The number of litres contained in each vessel is:
	(a) 20 litres (b) 30 litres
	(c) 25 litres (d) 35 litres
